

# Stanford | Pre-Collegiate Summer Institutes

## Pursue Your Passions in an Enriching Summer Program

2 Weeks • Grades 8 - 11 • Online Program

**Stanford Pre-Collegiate Summer Institutes** offers a unique summer enrichment experience for passionate and intellectually curious students, providing intensive focus on a single subject. Our program covers advanced topics rarely explored in high school and gives students the opportunity to challenge themselves and dive deep into exciting, cutting-edge fields.

### Program Dates:

Session One: June 16 - 27, 2025

Session Two: July 7 - 18, 2025

**Tuition:** \$3,080

*Need-based financial aid is available.*

### Single-Subject Study

Immerse yourself in focused, interactive courses this summer. Explore subjects like computer science, math, creative writing, social justice, and engineering. Each course provides a rich learning experience, fostering new skills and insights.

### Live Online Classes

Experience real-time learning in small, interactive classes. Engage with instructors and peers in live discussions, fostering vibrant collaboration. Participate in thought-provoking conversations and dynamic, interactive activities.

### Global Focus and Real Connections

Connect with peers from around the world in a memorable learning experience. Explore academic topics with students who share your curiosity, building connections that span cultures and perspectives.

Application Deadline: March 20, 2025
